PRESIDENT

Shoichi Maruyama (MK SEIKO Co., Ltd.)

Message from The President

This association is a nationwide organization comprised 53 manufacturers of automotive service equipment.

The precision-engineered and durable products made at the up-to-date, rationalized plants of to association members are delivered to automobile manufacturers, research laboratories, service stations and repair and maintenance shops across the country and are widely used to keep motor vehicles in better running conditions. Latest production of automotive service equipment was valued at yen 132,779,588,000 (US\$835M) a year. Of the total, yen 13,009,443,000 (US\$81.8M) worth of products were exported to overseas markets.

We take a special pride in the fact that Japanese made automotive service equipment has met varied requirements on a global basis.

For more information on Japan's automotive service equipment, please feel free to contact us.
